

European Partnership for BrainHealth 2026

Guidelines for patient and citizen organisations

Funding organisation	Contact person (incl. email and phone number)	Eligible institutions	Eligible costs	Anticipated amount of funding for this call	Anticipated no. of funded projects	Max. funding awarded to one partner	Specific submission and reporting requirements
Deutsches Zentrum für Luft- und Raumfahrt e.V., (DLR) on behalf of EP BrainHealth	brain-health@dlr.de	Patient organisations or citizen organisations only. Definition of eligible organisations: Patient organisations or citizen organisations are defined as not-for-profit organisations, which are patient or citizen focused, and where patients and/or carers and/or family members of patients or representatives of citizens (e.g. communities, populations) represent a majority of members in governing bodies. These are: • Umbrella organisations (e.g.	Expenses recognised as eligible are: personnel costs and operating expenses (travels, meeting, conference registration, etc.) but excluding office and IT equipment (workstation, mobile phone, tablets, etc.). Only staff costs are eligible, in proportion to the time spent on the project, with justification in the form of a time sheet. Operating expenses must be	350.000 €	7	Max. 50.000 € per project (if more than one organisation representing patients or citizens is participating in one consortium the amount should be shared). The same organisation can max. participate in 3 applications submitted to the call.	Please check with the national funding agency of your residence country if you are eligible for national funding from their side. Only if confirmed that you are not eligible for national funding, you may request funds from the EP BrainHealth. Criteria to be fulfilled by patient organisations or citizen organisations: Legitimacy: the organisation should be formally established and registered as a not-for-profit organisation in one of the EU Member States or Associated Countries. Mission/objectives: the organisation shall

		representing either European organisations and/or national umbrella organisations for patients or citizens); • European national organisations representing patient or citizen communities (i.e. representing national organisations or individual patients or citizens); and • National organisations representing patient or citizen communities	documented in the accounts. Expenditure on general, administrative and / or infrastructure costs is eligible respecting the maximum of 50.000 € total budget per project. All justifications and supporting documents are auditable by DLR or by any representative appointed by it during the project and a period of 5 years after the end of EP BrainHealth.			have its mission/objectives clearly defined. Structure: Includes in its governing structure a designated representative legally authorised to sign a contract with DLR on behalf of EP BrainHealth. Accountability: • With proven activities such as patient/patient family/citizens support and/or advocacy activities and/or health research. • Can demonstrate that its account system is able to trace all costs related to the project and archive these costs for a duration of 5 years after the end of EP BrainHealth. Transparency: • The organisation shall be financially independent, particularly from the private sector (max. 50% of funding from several companies) and disclose to EP BrainHealth its sources of
--	--	--	--	--	--	---

							funding both public and private by providing the name of the bodies and their individual financial contribution, both in absolute terms and in terms of overall percentage of the organisation budget. Any relationship with corporate sponsorship should be clear and transparent. This information shall be communicated to EP BrainHealth on an annual basis. The organisation should publish on its website the registered statutes, sources of funding, and information on their activities. To facilitate communication, a contact person shall be identified for each organisation.

European Partnership for BrainHealth 2026

Belgium/Flanders (FWO)

Please note that funder-specific requirements might apply to this call. For further information follow the links below or contact the national representative.

Funding organisation	Contact person (incl. email and phone number)	Eligible institutions	Eligible costs	Anticipated amount of funding for his call	Anticipated no. of funded projects	Max. funding awarded to one partner	Specific national submission and reporting requirements
The Research Foundation – Flanders (FWO)	Kristien Peeters +32 (0)2 550 15 95 Toon Monbaliu +32 (0)2 550 15 70 europe@fwo.be	The FWO integrates two of its national/regional funding channels within this multilateral framework. The choice of FWO funding channel depends on the <u>type of project</u> the researchers from Flanders wish to undertake (i.e. more fundamental in nature vs. strong valorization potential). The scope and the eligibility of	The FWO foresees a budget of 700.000 EUR, which guarantees at least two projects. The respective funding channel regulations apply (see links to national rules in the 'Eligible Institutions' section). Both are capped at max. 350.000 EUR per project/consortium (incl. overhead, for which the calculation method diverges per	700.000 EUR in total.	2-3	350.000 EUR (overhead included)	!! IMPORTANT !! Applicants for FWO funding must submit a mandatory administrative application via the FWO E-loket . - For fundamental research projects (FO) select the application type: 'Research projects – European programme fundamental research'. - For strategic basic research projects (SBO) select the application type: 'Research projects – European programme strategic basic research'. In case the consortium includes more than one partner

		institutions and its researchers can be verified in the relevant chosen funding channel regulations, which can be consulted on the FWO website: _ FWO Research Projects (FO) _ Strategic Basic Research (SBO) Or by contacting the FWO contact points that are mentioned.	funding channel - see explanation below). - For the overhead calculation, the fundamental (FO) and strategic research projects (SBO) use the same approach. A structural overhead rate should be applied on the project costs, with an overhead rate of 6% for 'FO projects', and a 17% overhead rate for 'SBO projects'. Some practical examples: → <u>FO</u>: the sum of all costs (personnel, consumables, travel, subcontracting, etc.) amounts to 200.000 EUR, then the overhead will amount to 12.000 EUR (6% of 200.000 EUR) and the total requested			requesting funding from FWO, <u>a single online form</u> should be submitted by the main PI (promotor(-spokesperson)) itself, through its personal 'e-loket', containing all relevant information for the different Flemish partners. - The deadline to submit this administrative application to the FWO is identical to the deadline of the joint transnational call (pre-proposal stage). - To ensure the eligibility of the proposal, it is recommended to consult the FWO administration at least one week in advance. <u>Failure to comply with these requirements can lead to ineligibility.</u> - Participation in this call does not interfere with the 'regular/national' project submission framework, and is consequently not taken into account for calculating the max. available number of new applications and running projects combined. However,
--	--	--	---	--	--	--

			cost is 212.000 EUR. This total re-requested cost may never exceed the max. available amount of 350.000 EUR. → <u>SBO</u>: the sum of all costs (personnel, consumables, travel, subcontracting, etc.) amounts to 200.000 EUR, then the overhead will amount to 34.000 EUR (17% of 200.000 EUR) and the total requested cost is 234.000 EUR. This total re-requested cost may never exceed the max. available amount of 350.000 EUR. Overhead should be mentioned in the Brain Health budget tables, but it should <u>not</u> be inserted in the			researchers can only participate within 2 different international consortia in this call. - Projects aiming at the development of a spin-off company are not eligible in this context. As such, this route should not be mentioned in the administrative FWO registration document. - Patient organizations cannot be directly funded by the FWO (and cannot apply for funding themselves consequently). They can be subcontracted by an eligible research institution from Flanders though. Contact the FWO for more information. - The project duration is limited to 36 months, which implies the funding has to be budgeted and spent accordingly. An automatic prolongation and using positive (financial) balances after the end date is not applicable in this framework. As such article 28 of the FWO Research Projects and article 14 of the Strategic Basic
--	--	--	--	--	--	--

			national/regional FWO mandatory administrative application on the FWO E-loket (See 'Specific national submission and reporting requirements')				<u>Research (SBO)</u> regulations do not apply here. - The PI, for each of the participating institutions applying for FWO funds, must hold an appointment that fully covers the duration of the research project. Linked to the above, when it comes to the <u>FWO research project regulations (FO)</u>: article 10, §7 is not applicable in this call. I.e. supervisors (-spokespersons), or coordinators/consortium partners in this context, who are granted emeritus status during the calendar year of submission of the project application or during the duration of the project execution, are not eligible.

Funding organisation	Contact person (incl. email and phone number)	Eligible institutions	Eligible costs	Anticipated amount of funding for his call	Anticipated no. of funded projects	Max. funding awarded to one partner	Specific national submission and reporting requirements
DFG German Research Foundation (DFG) www.dfg.de	Dr. Anke Ley anke.ley@dfg.de Tel. +49 (228) 885-3197	The general DFG rules and conditions as defined in the current DFG form 50.01 "Guidelines Research Grants Programme" apply. Note: Researchers working at institutions which serve purely commercial purposes or	Eligible cost categories (related to specific Programme Modules) are specified in DFG forms 52.01-52.07 and 52.14, available on the DFG website, see Link . The standard module that fits most needs is the Basic Module .	817.400€ (incl. overheads*)	DFG participation in 2-3 consortia (i.e. about 1-6 projects)	max. 400.000€ (incl. overheads*) per consortium; i.e. if two German partners participate in a consortium, the sum of funding requested by both groups must not exceed 400.000€ (incl. overheads*)	Please note that there are two German funding organisations (BMBF and DFG). Proposals selected for funding will be assigned to BMBF and DFG by the management organisations. Applicants from non-university research institutes are strongly advised to follow BMBF regulations (e.g. regarding the calculation of overheads), whereas applicants from universities should refer to the DFG's funder-specific information. In case your full proposal will be accepted for funding, there will be an additional application step with the

		those who are not permitted to publish findings in a generally accessible form are not eligible to apply. Industry is not eligible; some restrictions for non-university public research institutes; for further information see Guidelines on the Duty to Cooperate for members of non-university institutions with permanent positions (DFG form 55.01). Any duty to cooperate for DFG applicants at non-university research institutions can					German Funding agencies to finalize the funding. Applicants will receive a personalized invitation to submit the proposals in the electronic systems of the respective funding organization. Funding recommendations from the panel will be subject to approval by the partner organizations and DFG decision bodies, taking into account the availability of funds. Clinical Studies: Please note that interventional clinical trials, including feasibility studies or confirmatory interventional trials or observational studies with the primary aim to prove the efficacy of a therapeutic, diagnostic or prognostic method cannot be funded by the DFG within EP BrainHealth. Ethics regulations:
--	--	---	--	--	--	--	--

		only be fulfilled through cooperation with a partner at a German university. If applicable, please refer to our Guidelines on the Participation of Commercial Enterprises in Research Projects**.					All applicants conducting experiments in/with humans or human material have to submit an ethical approval and/or a positive vote from the relevant national or local ethics committee(s). If an ethics vote is required for the German or foreign part of the project, it must be submitted with the full-proposal. However, an ethics vote by the local German ethics committee can, as an exceptional case, be submitted no later than three months upon proposal submission. Otherwise, the DFG may stop processing the application. Please note that the submission of a German ethics vote is also necessary if only the project part abroad is affected as it is a cooperation project. German ethics committees can adopt the vote of the foreign ethics committee as its own.
--	--	---	--	--	--	--	--

							Applicants with fixed-term contracts: The proposal must contain the information that the employment relationship is fixed-term and also indicate the date that it ends. An informal statement from the management of the institute confirming that the applicant will continue to be employed throughout the duration of the project is helpful. Privacy Policy: Please note the DFG's data protection notice on research funding, which can be viewed and downloaded at www.dfg.de/privacy_policy. If necessary, please also forward this information to those individuals whose data will be processed by the DFG due to their involvement in your project. Good Scientific Practice
--	--	--	--	--	--	--	--

							According to a resolution of the DFG General Assembly, DFG funding may only be awarded to research institutions that have implemented the guidelines laid down in the Code of Conduct for Safeguarding Good Research Practice in their own regulations. The management of your institution is responsible for implementing the guidelines in a legally binding manner. In order to avoid delays in the disbursement of funding, please verify implementation within your institution in good time. For information regarding the implementation, please refer to the Research Integrity Portal. If you have any questions on this subject, please contact the Research Integrity team at the DFG Head Office.
--	--	--	--	--	--	--	--

							The DFG strongly welcomes proposals from researchers of all genders and sexual identities, from different ethnic, cultural, religious, ideological, or social backgrounds, from different career stages, types of universities and research institutions, and with disabilities or chronic illness.
--	--	--	--	--	--	--	--

* The "Programmpauschale" will generally amount 22% of the total project expenditure.

** If commercial companies are involved in the project, a cooperation agreement must be concluded. The model cooperation agreement provided by the DFG (www.dfg.de/formulare/41_026/) or the DESCA model cooperation agreement provided by the EU can be used for this purpose.

When using the DESCA model cooperation agreement, the following must be observed with regard to the granting of rights of use to the commercial enterprises involved in the project regarding the work results achieved by the DFG grant recipients in the funded project: If these rights of use, granted by the DFG recipients, are to be utilised by the commercial enterprises for the purpose of exploiting the work results achieved by the commercial enterprises in the project, 'fair and reasonable conditions' must be agreed for the rights of use, with the agreement of the "financial terms" variant (see Section 9.4.1 Option 1 of the DESCA model cooperation agreement in conjunction with Annex 5 of the Annotated Grant Agreement (Specific Rules on IPR)). In principle, the market value of the work results achieved by the grant recipient must be taken into account.

European Partnership for BrainHealth 2026

The Netherlands - Dutch Research Council (NWO)

Please note that funder-specific requirements might apply to this Call for proposals. For further information follow the links below or contact the national representative.

Funding organisation	Dutch Research Council (NWO)	
Contact persons	Melanie Neijts +31703494033 brainhealth@nwo.nl Madelief Zwaan +31703440572 brainhealth@nwo.nl	
Anticipated amount of funding for this Call for proposals	€2,000,000 For this Call for proposals, the budget for the Kingdom of the Netherlands is brought together by the Dutch Research Council (NWO) and the Dutch Brain Foundation (Hersenstichting).	
Anticipated no. of funded projects	5	
Max. funding awarded to one partner	€400,000	
Eligible institutions	Eligible costs	Specific national submission and reporting requirements

An application for funding from NWO may consider the following roles:

- National main applicant (mandatory): the applicant who leads the application to NWO and is the foreseen national project leader, in case a project is granted.
- National co-applicant (optional): national applicants in addition to the national main applicant with an active role and responsibility in realising the project and requesting funding from NWO.

A researcher may only request NWO funding for one project (part of a European consortium) in this Call for proposals, either as main applicant or co-applicant within an application for NWO funding.

National main applicants

Researchers may submit an application as a national main applicant if they have a tenured position (and therefore a paid position for an indefinite period*) or a tenure track agreement at one of the following research organisations:

- universities and universities of applied sciences (UAS) as referred to in Article 1.8 paragraph 1 of the Higher Education and Scientific Research Act and universities listed in the [Policy Rules for Universities located in the Kingdom of the Netherlands](#);
- university medical centres by which is meant academic hospitals as referred to in Article 1.13 paragraph 1 of the Higher Education and Scientific Research Act;
- institutes affiliated to the Royal Netherlands Academy of Arts and Sciences (KNAW) or NWO;
- TO2 institutions;
- Netherlands Cancer Institute;
- the Max Planck Institute for Psycholinguistics in Nijmegen;
- Naturalis Biodiversity Center;
- Advanced Research Centre for NanoLithography (ARCNL);
- Princess Máxima Center.

*Researchers employed at a university of applied sciences and researchers employed at a TO2 institute may also submit as a main national applicant provided that they have at least a salaried position for a limited period of time.

The following budget modules are available:

Personnel

Personnel at a university in the Kingdom of the Netherlands, umc or a research organisation, as referred to in Article 1.1, first paragraph, subparagraphs c to h of the NWO Grant Rules 2024 salary costs can be claimed for the following positions:

- *Postdoc*: at least 1 position, for at least 12 months, for at least 0.5 fte, according to UNL or UMCNL rates, a benchfee is available;
- *Non-scientific personnel (NWP)*: according to UNL or UMCNL rates;
- *Research leave*: max. 5% of the grant amount, according to UNL or UMCNL rates.

Personnel of universities of applied sciences, TO2 institutes and other research organisations using the Government Tariff Manual (HOT), Table 2, under 2.2 'average total salary cost per salary scale', column 'Hourly rate productive hours, excluding VAT';

An application for NWO funding has one national main applicant, responsible for scientific and financial management. National co-applicants within an application for NWO funding are allowed.

Submission of financial and scientific reports at national level is required in accordance with the rules of NWO. Granted consortia will be informed in due time.

The [NWO Grant Rules 2024](#) and the [Agreement on the Payment of Costs for Scientific Research](#) are applicable to all applications for NWO funding. Any arrangements made regarding the grant from NWO, for instance in a Consortium Agreement, must comply with the NWO Grant Rules 2024 and the European legislation on state aid. Once proposals are selected for funding, the consortia

Persons with a zero-hour employment agreement or with a contract for a limited period of time (other than a tenure track appointment) may not submit a proposal. It could be the case that the applicant's tenure track agreement ends before the intended completion date of the project for which funding is applied for, or that before that date, the applicant's tenured contract ends due to the applicant reaching retirement age. In that case, the applicant needs to include a statement from their employer in which the organisation concerned guarantees that the project and all project members for whom funding has been requested will receive adequate supervision for the full duration of the project. Such a statement should be submitted in the proposal stage. The main national applicant employed by a university of applied sciences or TO2 institute whose employment ends before the intended completion date of the project for which the grant is being applied for must also attach such a statement. Applicants with a part-time contract should guarantee adequate supervision of the project and all project members for whom funding is requested. National co-applicants Researchers interested to apply as a national co-applicant, i.e. together with a national main applicant, may submit as a national co-applicant if they have a tenured position (and therefore a paid position for an indefinite period*) or a tenure track agreement at one of the research organisations listed under 'National main applicants' or at other research organisations as referred to in Article 1.1, paragraph 4 of the NWO Grant Rules 2024 that meet the following cumulative conditions: - be established in the Netherlands;	Students, according to the usual internship fee or HOT rates, may be added to material costs Material For project-specific material costs, up to 25% of the grant amount. Subsequently, up to 50% of the material budget can be used for work by third parties; Knowledge utilisation² For activities that promote the use of knowledge from the research following the Impact Plan approach, mandatory 5-20% of the grant amount; Project management Up to 5% of the grant amount. Please note the following: - PhD positions cannot be applied for in this call, due to the maximum project duration of 3 years. - NWO funds project-related costs. Therefore overhead costs are not eligible for NWO funding.	will be notified by Call Secretariat and subsequently, the national granting process will be initiated by NWO. As stipulated in the NWO Grant Rules 2024, Article 3.2, paragraph 2, the project cannot start until the conditions set out in the grant award decision regarding the start of the project are met. Please note, these conditions will include a signed Consortium agreement by all partners in the transnational project. Under the Dutch General Administrative Law Act, any interested party has the right to lodge an objection to the decision taken by NWO within six weeks of the date of the decision letter. Further information about the objections procedure can be found on
---	---	---

² All activities applied for under this budget module must fit within the definition of "Knowledge Transfer Activities" used by the European Commission in the Framework for State Aid for Research, Development and Innovation (OJEU 2022, C 414).

- be a foundation, association or legal entity governed by public law (“publiekrechtelijke rechtspersoon”) (all other legal forms, including private and public limited companies, are excluded); - have as its primary goal the independent conduct of its own fundamental research or industrial research or with widely disseminating the results of those activities through teaching, publications or knowledge transfer; - be able to state that the organisation keeps separate accounts with regard to economic/non-economic activities and that undertakings with decisive influence on the organisation do not enjoy preferential access to the organisation's results. <u>Please note:</u> Prior to the submission of an application, NWO assesses on the basis of the above-mentioned conditions whether an organisation complies with Article 1.1, paragraph 4 of the NWO Grant Rules 2024 and may therefore participate as a national co-applicant. NWO performs this assessment to preclude the granting of prohibited state aid. The organisation of the prospective national co-applicant must provide the following documents no less than 10 working days prior to the submission deadline for pre-proposals (meaning no later than 24-02-2026 14:00:00 CET) by email to brainhealth@nwo.nl: - a recent extract from the Netherlands Chamber of Commerce; - the deed of incorporation or current articles of association; - the latest available annual accounts accompanied by an audit statement¹; - the completed form ‘Declaration research organisation’, available on the funding page of this Call for proposals on the NWO website. Other relevant documentation may be added. NWO may request additional information if the above documents are not sufficiently conclusive to determine whether the organisation may act as a national co-applicant.	- The budget items “overheads”, “equipment” and “subcontracting costs” in the BrainHealth budget format are not eligible for NWO funding. - Researchers employed at a university in the Kingdom of the Netherlands, umc or a research organisation, as referred to in Article 1.1, first paragraph, subparagraphs c to h of the NWO Grant Rules 2024 may not apply for a scientific or post-doc position for themselves. A more detailed explanation of the budget modules and eligible costs can be found on the funding page on the NWO website. It is <u>recommended</u> to use the NWO budget template in the pre-proposal stage to confirm eligibility of budget items. For proposals, it is <u>mandatory</u> to submit the NWO budget form for the funding requested at NWO at the time of the transnational	the NWO website: Lodging an objection NWO. NWO will, if necessary, apply a one-off indexation of personnel costs when awarding the grant. The UNL/UMCNL/HOT rate at the time of the decision date applies and the date on which the rates take effect is used for this purpose.
--	---	---

¹ Organisations that are not legally obliged to have their annual accounts audited do not need to provide such an auditor’s statement. They must however be able to demonstrate that this legal requirement is not applicable to the organisation concerned.

If the organisation of the prospective national co-applicant does not submit the necessary documents for this assessment in time, NWO cannot accept the organisation as a national co-applicant. If the addition of new national co-applicants to the proposal is allowed and these new co-applicants are not affiliated to a research organisation listed above, these conditions will also be checked for this organisation/these organisations. The documents listed above as a requirement in the pre-proposal stage must then be submitted by email no less than 10 working days before the submission deadline for proposals (meaning no later than 16-06-2026 14:00:00 CEST).

deadline. Please submit it to brainhealth@nwo.nl.

Do not hesitate to contact the national contact point in case of questions via the aforementioned email address.

European Partnership for BrainHealth 2026

New Zealand (Ministry of Health, Ministry of Business, Innovation and Employment and University of Otago)

Please note that funder-specific requirements might apply to this call. For further information follow the links below or contact the national representative.

Funding organisation	Contact person (incl. email and phone number)	Eligible institutions	Eligible costs	Anticipated amount of funding for his call	Anticipated no. of funded projects	Max. funding awarded to one partner	Specific national submission and reporting requirements
<i>University of Otago acts as administrative host</i>	Primary contact is Professor Rachael Taylor NZ Health NCP +64 21 479 556 Clus-ter1NCP@mbie.govt.nz Also: Associate Professor Justin Dean Phone number: +64 9 9236201 Email: j.dean@auckland.ac.nz	- To ensure that the research investments benefit the health of New Zealanders, the lead researcher and named personnel must be employed by a University, Te Pūkenga, Wānanga, Crown Research Institute/Public Research Organisation or an Independent Research Organisation in New Zealand for the duration of the grant. - The New Zealand research organisation that will be the project host will provide the equipment and	Salary, consumables, and working expenses to complete the project. Required travel to meet reporting obligations at economy fare rates only, and accommodation and sustenance at a rate that complies with the project host organisation requirements. Funding does not include overhead costs and	NZ\$100,000 ~Euro 52,000	One	NZ\$100,000 ~Euro 52,000	- To ensure that research benefits all New Zealanders, the project cannot create or maintain an inequity. - Researchers must provide a Māori Health Advancement statement, consistent with the Health Research Council project grant guidelines, to the Research Office at the University of Otago at least two weeks before the pre-proposal (expression of interest, EoI) submission closure date. This will be assessed by independent experts. The statement must not exceed 1000 words.

		infrastructure to conduct the research. 3. If an Independent Research Organisation in New Zealand is named as the project host, the lead researcher in New Zealand needs to obtain written prior approval for them to act as the host at least 2 weeks before the expression of interest (pre-proposal) submission closure date.	will not support the purchase of equipment over \$5K.				The research team will need to explain how the project does not maintain or create an inequity for their application to be deemed complete. To provide context for this assessment, a brief summary (1000 words maximum) of the overall project, and the New Zealand researchers' contribution, will also need to be submitted. 3. EoI and full proposals, mid-term and final reports must be submitted to the Research Office at the University of Otago, as well as to the portal managed by DLR. 4. If more than \$20K of the New Zealand funded research will be for work conducted outside New Zealand, you need to obtain written prior approval at least 2 weeks before the due date of the EoI application. This allocation will need to be fully justified.

That costs for enterprises include costs related to consumables, travel and other direct costs. Additional overheads costs should account 20% of eligible direct project costs and are counted as a multiplication by percentage given above (called x%) and the rest of direct costs; It means $5 = (1+2+3+4) \times 20\%$. For more details on eligible costs, applicants are advised to check cost eligibility guide (przewodnik kwalifikowalności kosztów) in the call announcement on NCBR webpage: https://www.gov.pl/web/ncbr		single applicant or max. 440 000 € for group of entities. The additional amount of funding shall be spent on personnel costs (costs of employment of Ukrainian Researcher) or equipment or consumables or travel and overhead needed to perform their work.	justified and described in the proposal.
--	--	--	---	--	---	--

Participating entities must be established as legal persons³ and must conduct business, R&D activity or any other activity on the territory of the Republic of Poland, confirmed by an entry into the relevant Polish official register⁴.

For enterprises it is strongly advised to state in the pre-proposal application form the KRS (National Court Register) number of the enterprise and the size of the enterprise (micro/small, medium, large);

For a group of entities to participate as an Applicant in the call, it must formally exist on the date the pre-proposal is submitted. This existence must be evidenced by an agreement made by the members - at least conditionally - to create the group of entities (consortium).

An Ukrainian researcher:

1. has Ukrainian citizenship, holds at least a Master (Магістр) or Specialist (Спеціаліст) degree obtained in Ukraine (or an equivalent degree obtained outside Ukraine). As a result of the armed conflict on the territory of Ukraine, the researcher is either :
 - a) a resident in Poland who arrived in Poland no earlier than 24 February 2022; or
 - b) a resident in Ukraine unable to continue their academic career or work in research and development (R&D)
2. is employed by a Polish Applicant under the relevant contract. Both the Polish Applicant as well as the Ukrainian researcher, undertake to comply with Polish employment law.
3. contributes to research works in the project, i.e. industrial research and/or experimental development. The added value of their participation in the project must be scientifically justified and described in both the proposal and the national application.

The Polish Applicant shall provide documentary evidence confirming that all eligibility criteria of Ukrainian researcher are met. Such evidence shall include, but not be limited to: proof of Ukrainian citizenship, academic qualifications, residence status and date of arrival, proof of employment under relevant contract with the Polish Applicant, and documentation demonstrating the researcher's contribution to the project. The evidence shall be submitted on NCBR request in due time.

Funding quotas for Polish participants may reach up to 100% for universities and research organisations. For enterprises, the quota will be determined on a case-by-case basis, taking into account company size and the type of research and development activity, pursuant to Section 2 of the Regulation of the Minister of Science and Higher Education of 19 August 2020 on granting state aid by the National Centre for Research and Development (Journal of Laws 2020, item 1456).

³ Legal person - an entity that is capable of having and amending legal rights and obligations within a certain legal system, such as to enter into contracts, sue, and be sued, excluding natural persons;

⁴ if applicable.

In any case only Industrial Research and Experimental Development are eligible for funding. Other activities (e.g. coordination, dissemination, management) shall not be included into separate tasks.

	Large Enterprises	Medium Enterprises	Small Enterprises	Universities and research organizations
Fundamental/Basic Research	Not eligible	Not eligible	Not eligible	Not eligible
Industrial Research	Up to 50+5/15/25 (max 75 %)	Up to 50+10+5/15/25 (max 80 %)	Up to 50+20+5/15/25 (max 80 %)	Up to 100 %
Experimental development	Up to 25+5/15/25 (max 50 %)	Up to 25+10+5/15/25 (max 60 %)	Up to 25+20+5/15/25 (max 70 %)	Up to 100 %

For entrepreneurs independently undertaking projects at the national level (meaning there is no Polish group of entities or Polish group of enterprises), there is no possibility of increasing the intensity of state aid for industrial research and experimental development based on the condition of effective cooperation between entrepreneurs or between entrepreneurs and research organisations.

Only Industrial/Applied Research and Experimental Development will be funded. Other type of activities (e.g. coordination, dissemination, management) is not eligible for funding as separate research tasks in the project schedule.

After international evaluation of full proposals and the selection of projects to be funded, Polish participants will be invited to submit a National Application Form (NAF). The NAFs will be examined for the appropriateness of funding requested. The Polish participants are obliged to use the rate of exchange of the European Central Bank dated on the day of opening of the call. If more than one Polish entity participates in the project, the national application is submitted by a consortium (group of entities) of all Polish partners. Document templates are available at: <https://www.gov.pl/web/ncbr/wniosek-krajowy-w-lsi>

Relevant documents:

All proposals must be aligned with national regulations, inter alia:

- The Act of 20 July 2018 - Law on Higher Education and Science;
- The Act of 30 April 2010 on the National Centre for Research and Development;

- The Regulation of the Minister of Science and Higher Education of 19 August 2020 on granting state aid by the National Centre for Research and Development, which is in line with the Commission Regulation (EU) No 651/2014 of 17 June 2014 declaring certain categories of aid compatible with the internal market in application of Articles 107 and 108 of the Treaty (General Block Exemption Regulation);
- The Regulation of the Minister of Science and Higher Education of 17 September 2010 on the detailed mode of performance of tasks of the National Centre for Research and Development.
- The Regulation of the Minister of Funds and Regional Policy of 1 December 2023, amending the Regulation on granting state aid by the National Centre for Research and Development.

We encourage you to learn about and use our "PartFinder" (Partner Search Tool), which allows you to match science and industry entities from around the world with each other. The search engine is available at: <https://partfinder.ncbr.gov.pl/>

FCT - Portugal

Information type	Details
Applicable regulation	Applications requesting funding from FCT under this call will be subject to Regulation on projects funded solely by national funds , published in Regulation No. 999/2016, in its current wording, that is, as amended and republished by Regulation No. 5/2024 of 3 January, and corrected by Rectification Statement No. 366/2024/2, published in the <i>Diário da República</i> , 2nd series, No. 100, of 23 May 2024, and by all other applicable national and European Union legislation.
Type of beneficiaries	For information on the type of beneficiaries eligible for FCT funding under this call, see article 3 of FCT Regulation .
Criteria of beneficiaries' eligibility	For information on the criteria of beneficiaries' eligibility, see article 5 of FCT Regulation .
Criteria of projects' eligibility	For information on the criteria of projects' eligibility, see article 6 of FCT Regulation .
Funding allocation to be granted and conditions	FCT budget allocation is 250,000 € for each call. The maximum amount of funding to be requested to FCT per proposal with a Portuguese Coordinator is 150.000,00€. The maximum amount of funding to be requested to FCT per proposal with a Portuguese Project Applicant is 100.000,00€. If more than one Portuguese applicant participating in the same international consortium applies for funding by FCT, the combined funding demanded by all the Portuguese applicants may not exceed the maximum financial threshold for proposals with a Portuguese Coordinator (150.000,00€) or with a Project Applicant (100.000,00€). Portuguese Coordinators and/or Project Applicants in the same international consortium will therefore have to share the funding that will be granted by FCT. information on funding rates, see no. 2 of article 7 of FCT Regulation.
Limits to the number of applications to be submitted by the RC and the beneficiary	In agreement with the general call criteria.
Rules and limits to the expense eligibility	For the purposes of defining the budget, the terms defined in article 8 of FCT Regulation apply to eligible expenses and in article 9 to non-eligible expenses. Excluded from the range of eligible expenses are the salaries and other remuneration supplements of teachers, researchers and other staff with a previously established indefinite contract with the Public Administration. Expenditure on adapting buildings and facilities is limited to a maximum of 10% of the project's total eligible expenses. The project's indirect costs are based on the application of a flat rate of 25% of the direct eligible costs.

Information type	Details
Applicable forms of payment	In accordance with no. 1 of article 7 of the FCT Regulation , the funding to be granted to proposals requesting funding from FCT under this call is non-reimbursable and is based on real costs . As such it must be justified through invoices paid or other accounting documents of similar probatory value, under the terms of no. 5 of article 8 of FCT Regulation .
Additional information	- The percentage of time dedicated to transnational projects will not be added to the percentage of time dedicated to existing national projects. Statement of Commitment: - Within 10 working days after the deadline for submitting the pre-proposal, a Statement of Commitment duly signed by the Researcher in Charge (partner and/or coordinators) and by the legal representant of the Portuguese Proposing Institution must be sent to the contact persons. The template for this Statement can be found on FCT's webpage dedicated to this call. - The stamp or white seal of the Portuguese Proposing Institution will not be required on a digitally signed Statement of Commitment. - Portuguese applicants of transnational consortia that <u>do not apply for funding from FCT do not need</u> to submit the Statement of Commitment to FCT.
Contact Point	Marta Abrantes marta.abrantes@fct.pt T: [+351] 213 911 596 Luisa Peixoto Luisa.peixoto@fct.pt T: [+351] 213 911 532

European Partnership for BrainHealth 2026

Spain (AEI)

Please note that funder-specific requirements might apply to this call. For further information follow the links below or contact the national representative.

Funding organisation	Contact person (incl. email and phone number)	Eligible institutions	Eligible costs	Anticipated amount of funding for this call	Anticipated no. of funded projects	Max. funding awarded to one partner	Specific national submission and reporting requirements
Agencia Estatal de Investigación (AEI)	National contact point: Silvia Lorrio neuron@aei.gov.es b.es	Eligible entities for the AEI funding are: Non-profit research organizations (such as universities, public research institutions, technological centres, patient organisations, and other private non-profit institutions performing RDI activities in Spain), which must comply with the requirements established by this transnational call and with the rules on eligibility defined in the corresponding Spanish national funding instrument “ Proyectos de Colaboración Internacional PCI ” (see PCI 2025-2 as an example) and the PCI Requirements document . They must have been previously beneficiaries of any of the AEI calls , according to the PCI Requirements document . They have to ensure contractual relationship with the Principal Investigator (PI) during all the implementation of the project. Centres formed by different Spanish legal entities will be considered as a unique entity,	- Research and innovation activities are eligible. Mere dissemination, communication or other similar activities will not be eligible. Contracts for supporting personnel (gross remuneration and social security contributions) related to the implementation of the funded	650.000€	2-3	The <u>following funding limits for direct costs</u> and for a three-year project are considered eligibility criteria. Proposals not respecting these limits could be declared ineligible. If the consortium is NOT COORDINATED by an AEI-applicant: max. € 140.000	Funding Programme: The framework for this funding action is the Plan Estatal de Investigación Científica, Técnica y de Innovación 2024-2027 . On a national level, the Call will be managed by the Subdivisión de Programas Científico-Técnicos Transversales, Fortalecimiento y

		and thus the maximum funding should not exceed the limits per proposal established above (for example, mixed centres). Two centres or institutions belonging to the Consejo Superior de Investigaciones Científicas (CSIC) will be treated as two separate partners one from another when one of them is acting as Coordinator of the proposal and their tasks and identity in the project are sufficiently separated and justified. Although private enterprises are not funded by the AEI, the Spanish industrial sector is welcome to participate in the transnational consortia obtaining funds from innovation and technological development funding agencies, or using own funds. The final funding will take into account the transnational evaluation of the collaborative proposal, the scientific quality of the Spanish group, the added value of the international collaboration, the participation of the industrial sector, and the financial resources available. Principal Investigators (PIs) requesting funding to the AEI must: • Be eligible to the corresponding PCI call (see PCI 2025-2 as an example) and the PCI Requirements document. • Demonstrate experience as investigators in projects funded by the different Plan Estatal I+D+i: 2013-2016, 2017-2020, 2021-2023, 2024-2027, ERC Grants, European Framework Programmes or other relevant national or international programmes. It is strongly encouraged to check eligibility contacting the NCP.	project. The contract must specify the percentage of the hired person's time dedicated to the project. The costs of permanent staff linked to the beneficiary entity or members of the research team will not be considered eligible costs. • Direct costs such as current costs, scientific equipment, disposable materials, travelling expenses, coordination costs and other costs that can be justified as necessary to carry out the		• If the consortium IS COORDINATE D by an AEI-applicant: max. € 220.000 • If the consortium IS COORDINATE D by an AEI-applicant and there is another AEI-applicant in the proposal, the amount for both Partners is: max. € 260.000 • Additional amount of € 30.000 maximum (direct costs) and the corresponding indirect costs can be requested per proposal if the work plan includes substantial experimental tasks carried out by the AEI applicants.	Excelencia (STRAN) of the AEI. Funding Instrument: The instrument for funding the Spanish groups requesting funding to the AEI is the corresponding Spanish call "Proyectos de Colaboración Internacional" (PCI) (to be published in due time). Data Protection: By submitting a grant application to the AEI, the applicants consent to communication of the data contained in the application to other public administrations, with the aim of further
--	--	---	---	--	--	---

		Incompatibilities: These must be taken into account when participating in different ERA-Nets, European Co-funded Partnerships or other international initiatives. • PIs will not be eligible for funding if they apply (i) to more than one proposal in this transnational joint call(ii) to more than one proposal in the same PCI call and/or (iii) to PCI calls of consecutive years. • If the same PI submits two or more proposals in this transnational call, they will all be declared ineligible, except one, without the possibility of changing the PI. • Changes of the PI between the 2 steps of the transnational call are not allowed. • PI must remain unchanged between the proposal to this transnational call and the corresponding PCI call should the proposal be recommended for funding. • A PI that has been granted a PCI the previous year will be declared ineligible, without the possibility of changing the PI. Important: The applicants should include in the application form the PI's full name and the full name of their institution as it is stated in the Sistema de Entidades (SISEN). Important: After the evaluation process and based on their budgetary availability and requested funding of selected projects, AEI and ISCIII may exchange applicants to each other in order to optimize the available funds, provided the respective eligibility rules are met. IMPORTANT and NEW! • <i>Submission of proposals at the AEI:</i> Within one week after the pre-proposal submission, the	proposed activities. • Indirect costs (25% of all direct costs, including the subcontracting costs). • Clinical trials are eligible up to phase 1, with a maximum of 50% of the total budget (contact the National Contact Point for further details). Minor changes of the budget might be accepted between the pre-proposal stage and the full proposal stage, provided that the maximum requested amount does not exceed the			“Substantial experimental tasks” are those required for the development of observational or experimental research projects. For instance, ecosystem sampling, design and execution of experiments, obtention of new data sets, use of analytical procedures for the quantification of physical, chemical, geological, or biological variables. Tasks in which existing data are used or re-analyzed exclusively will not be considered substantial experimental tasks. Those tasks will be	processing of the data for historical, statistical or scientific purposes, within the framework of the Organic Law 3/2018, of December 5, on Personal Data Protection and Guarantee of Digital Rights. Acknowledgement: Any publication or dissemination activity resulting from the granted projects must acknowledge the AEI funding: “Project (reference nº XX) funded by Agencia Estatal de Investigación (AEI) through the PCI (year) call”. <u>As a reference, the applicants are strongly</u>
--	--	---	--	--	--	--	---

		Spanish PI must ALSO submit a proposal to the AEI. The PI must include a copy of the international joint pre-proposal, and the “<u>Declaración responsable del investigador principal</u>” (see Word document on the AEI website). You can find below the link to the AEI application system to upload these documents: https://aplicaciones.aei.gob.es/proyectostransnacionales/	maximum funding per project allowed. A request of change must be submitted to the AEI at least two weeks before the deadline for submitting full proposals. The AEI will avoid double funding (overlapping with other EU or National funding) and will not grant projects or parts of projects already funded.		considered desk and not experimental research projects. IMPORTANT: • On top of the abovementioned direct cost limits, indirect costs must be added in the application: 25% of direct costs (including the subcontracting costs). • the direct costs (including subcontracting) in the application must be rounded to the thousands. • The final funding will take into account the transnational evaluation of the collaborative	advised to read the call text of the PCI 2025-2, and especially the the PCI Requirements document on the national call website as well as check their eligibility with the National Contact Point prior to the submission.

Switzerland (Swiss National Science Foundation)

Please note that funder-specific requirements might apply to this call. For further information follow the links below or contact the national representative.

Funding organisation	Contact person (incl. email and phone number)	Eligible institutions	Eligible costs	Anticipated amount of funding for this call	Anticipated no. of funded projects	Max. funding awarded to one partner	Specific national submission and reporting requirements
Swiss National Science Foundation (SNSF) www.snf.ch	Clémence Le Cornec, Francis Parlange and Cornelia Sommer brainhealth@snf.ch +41 31 308 23 85	Applicants must comply with the SNSF Funding Regulations . All applicants and co-applicants seeking SNSF support must be eligible for SNSF Project Funding. Please note that applications submitted by a non-eligible person will not be considered nor evaluated. Please refer to the regulations and contact the national contact person for	Eligible costs are outlined in the SNSF Funding Regulations (Art. 28) and the SNSF General Implementation Regulations (Section 2). Project overhead costs cannot be applied for. They are calculated on the basis of the research	1'000'000 CHF for call 1	3-4	The minimum amount that can be requested to the SNSF is 100'000 Swiss francs per project . The SNSF provides a maximum of 400'000 Swiss francs per applicant over 3 years .	Mandatory, parallel submission of pre- and full-proposal via mySNF Swiss partners must submit pre- and full proposals via mySNF at the same submission deadline as the consortium application. These submissions are mandatory

		questions and re-assurance. Besides the eligibility check, the SNSF proceeds to a material check. This refers to the applicant's experience and research activity during several years as well as the demonstration of their scientific independence (Art. 3 and 4, Project funding regulations). Participation of Swiss-based partners requesting financial support from the SNSF is restricted to one project (Art.7.3, SNSF Regulations on project funding). They may, however, participate in other consortia	funding acquired by eligible institutions under eligible funding schemes. Overhead contributions are paid in retrospect at a flat rate to the institutions of the SNSF awardees. The SNSF exclusively funds research conducted for purposes that are not directly commercial. Pursuant to the Research and Innovation Promotion Act RIPA and the legal framework of				and do not replace the submission of the consortium application to the Call Secretariat. Pre-proposal are created by selecting "Projects: Partnership: BrainHealth: Pre-proposal". Full-proposal are created by selecting "Projects: Partnership: Brain Health: Full proposal" and are to be linked to the pre-proposal by selecting its number in the data container
--	--	--	--	--	--	--	--

		projects as self-financed partners.	the SNSF, no research grants are awarded if the relevant research is conducted for directly commercial purposes or if the persons involved in the research work do not enjoy scientific independence.				"Relation to pre-proposal". In case of multiple Swiss partners participating in the same consortium, only one application is to be submitted on <i>mySNF</i>, whereby one Swiss partner must act as "corresponding applicant" and the other Swiss partners are to be listed as "other applicants". International partners of the consortium applying for
--	--	-------------------------------------	---	--	--	--	---

							funding at different funding agencies from the SNSF cannot be declared as "project partners" in the sense of article 11.2 of the SNSF Funding Regulations. For the submission via <i>mySNF</i>, they are to be declared as "consortium partners" instead and must apply for their funding at their respective research funding organisation.
--	--	--	--	--	--	--	---

							The maximum number of grants in the project funding scheme for the same funding period from the SNSF is limited to three grants, provided at least one grant is for an EU consortium project or has been granted on the basis of a lead agency, Weave or International Co-investigator scheme evaluation. Swiss-based investigators who already
--	--	--	--	--	--	--	--

							hold three SNSF grants in project funding cannot request financial support from the SNSF to participate in this call (Article 13 of <u>the Amended Project Funding Regulations</u>). Proposals with overlapping funding periods with ongoing SNSF projects are only approved if the research projects
--	--	--	--	--	--	--	---

						pursue different goals (Article 17 of the SNSF Funding Regulations). Data management plan Applicants will have to complete the DMP on <i>mySNF</i> once the project is approved, regardless of whether a DMP is requested by the consortium. The DMP has to cover the research data, which are collected, observed,
--	--	--	--	--	--	--

							generated or reused in the Swiss part of the project and has to comply with the SNSF Open Research Data Policy. Consortium agreement Before the release of the funds, the SNSF requests the submission of a copy of the consortium agreement signed by all the partners. Grant management Grants will be managed according to standard SNSF rules described in SNSF
--	--	--	--	--	--	--	--

							<u>Funding Regulations.</u> Yearly financial reports for the use of SNSF funds must be submitted via <i>mySNF</i>. As a final scientific report, the SNSF requests the submission of the final scientific report submitted to the BrainHealth Call Secretariat. No other scientific report is requested.
